Make it your own!
Although this recipe is just the basic version, the great thing about this salad are all the different variations you can make!

Try swapping out the balsamic for lemon juice or any type of vinegar.

Experiment with different oils like coconut oil, sesame oil, or even avocado.

Once your kale is massaged, the options for add-ons are endless:

- Toss in some toasted sunflower seeds, sesame seeds, almonds, pepitas or other nuts.
- Sweeten it up with berries and other fruits.
- Spice it up with your favorite seasonings.

Single-serving salad, to-go!
For a great on-the-go lunch option, consider making a single serving salad ahead of time.

Combine
+ 1/2 cup thinly sliced kale
+ 1 teaspoon olive oil
+ 1 teaspoon vinegar
...into a sandwich baggie.
Just wait to massage the kale in the baggie until just before you are ready to eat it so it stays fresh!

The microwave can be an easy alternative to the oven for making perfectly crispy kale chips!

**Ingredients:**
- 1 bunch washed kale
- 1 Tablespoon olive oil
- 1 teaspoon salt (optional)

**Directions:**
1. Remove stems from freshly washed kale. Place leaves in a large glass mixing bowl and add olive oil and salt (optional). Toss until kale is evenly coated with oil.
2. Drape leaves evenly in a single layer around the edges and base of a glass bowl or plate. Try not to let them overlap, to allow even cooking.
3. Place dish in microwave, and microwave on high for 3 minutes. Carefully remove dish (use an oven mitt, since the dish will be hot!), and test the leaves for crispiness.
4. If the leaves are not crispy, microwave on high for another 3 minutes, then check again. Continue microwaving in 1 minute increments until the leaves are uniformly crispy (about 8-10 min total).
5. Sprinkle with your favorite seasonings and enjoy!
